

HOW TO ...

HOW TO ... DODGE A SURFACE-TO-AIR MISSILE

ILLUSTRATIONS BY SETA IORDI

1. **AVOID IT.** BY USING INTEL OR RECONNAISSANCE INFORMATION IN THE MISSION BRIEFING, YOU SHOULD BE ABLE TO FLY AROUND A THREAT OR MAKE A PLAN TO TAKE ADVANTAGE OF ITS INHERENT WEAKNESS.

2. IF THE ENEMY GETS LUCKY ENOUGH TO TAKE A SHOT AT YOU, KEEP YOUR EYES ON THE MISSILE TO SEE WHAT IT'S DOING.

3. **OUTMANEUVER IT.** **SAMS** HAVE VERY SMALL WINGS AND CAN'T TURN VERY WELL COMPARED TO FIGHTER AIRCRAFT.

4. **MAKE THEM PAY!** REPORT THE INCIDENT, PLAN FOR ANOTHER ATTACK AND THEN TAKE OUT THE **SAM** SITE.

GAME OVER!
